These drawings and notes constitute a contract and are to be read in conjunction with the "Builder's Set". They have been produced with limited construction detail on the assumption that the Builder, as a trained professional, possesses the expertise required to complete the work in a workmanlike manner. The design is intended to be used in conjunction with the structural recommendations or other procedures to be used in the construction of the building. The design is intended to be used in conjunction with the appropriate registered Engineer. General Contractor to check and verify all dimensions, window sizes, and other conditions at the job site prior to start of construction. Construction to conform to all local regulations and restrictions.
